Revision "A" Narrative

Hello Mr. Flingos,

Even though you have approved the electrical portion of this remodeling, please be advised that we have had some minor changes due to other department and MDC comments, as well as a change of MEP EOR for this project. Therefore, all electrical sheets have been resubmitted under the new EOR, PSI Engineering. We apologize for any inconvenience and please ask that these new sheets dated 5/15/24, replace any previously submitted set of electrical drawings. The new file names are:
