Beacon Hill Thermory® 4' Contour Bench

Material
The contour bench is composed of 1" x 3.5" (1" x 4" nominal dimensions) Thermory seat and back planks made from thermally-modified North American White Ash—a sustainably harvested and renewable temperate hardwood along with aluminum accent planks.
Armrest and legs are made of cast iron and bench has steel under supports. Bench seat will support 200 lbs. per linear foot.

Features
The armrests have individual right end and left end orientation.
Thermory is a low-maintenance, environmentally-friendly hardwood and a great alternative to commonly used tropical rainforest hardwoods because of its dimensional stability and Class 1 durability (25+ years). Thermory has a lower carbon footprint than tropical hardwoods.
The bench is designed to be portable for flexibility in placement or surface mounted using pre-drilled .50" diameter holes in the feet to prevent movement. **Mounting hardware is not included.**

Finish
Thermory is a lustrous chocolate brown color when new and will naturally age to a uniform silver/gray overtime. The color-changing process begins immediately and varies with the amount of UV-exposure.
Rust-proof aluminum and rust-resistant primed steel components feature a fade-resistant powder coating. Treated components exceed the industry standard by 34% in testing by independent sources.

Assembly
This product ships fully assembled and ready-to-use. Assembly includes stainless steel hardware.

Color
See website or sales representative for color choices.

Maintenance
Clean Thermory with mild soap and water. Let dry thoroughly. To maintain original color, regularly apply standard deck oil, such as Cutek® Extreme Wood Protection Oil.

Warranty
20-year limited structural warranty, 10-year warranty on Thermory, and 3-year finish warranty on powder coated steel and aluminum; 7-year warranty against fading from the date of purchase. See full details on multi-year warranties for components at anovafurnishings.com/warranty.
Manufactured in the U.S.
