Please accept these photos of the existing wood fence for the issuance of the building permit for this project. We fully understand that as the contractor we must abide by the city's swimming pool barrier code, as such the fence that will surround the property is seen on the engineering plans and any repairs that need to be made will be done after the construction process and prior to filling the swimming pool. Please call if you have any other requests so that we may begin our work, thank you.
