Tree Removal / Relocation Permit – Revision 5

04.15.26

PROCESS NUMBER: PZ2025-0294

To whom it may concern,

The purpose of Revision 5 to PZ2025-0294 is to coordinate the landscape plans with the newly revised design for the house. The owners have decided to modify the overall design of the house to include a new bedroom suite on the ground floor and remove it from the second floor. We are updating the master permit drawings to reflect this new change.

This new bedroom will conflict with existing tree number 36 (Live Oak). We are proposing relocating Tree 36, which is currently on the NW corner of the lot to the South property line, between existing trees 72 and 75. Please see sheets TD-1, L-0, and L-1.

Since tree 36 was qualified as an energy Conservation Tree, we are proposing a new tree, BS (Gumbo Limbo), at the NE corner of the lot to qualify as the required Energy Conservation Tree.

There are no other changes to the plans under this submittal.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Antonio Sosa, AR 95256
