NARRATIVE

The plans are being resubmitted to the city due to adjustments made, including:

- Changes to the shape of the staircase leading to the second floor.
- An additional 5 square feet of area was added to the second floor, increasing the area previously designated as open below.
- Modifications were made to the area where the maid's bedroom was located, and a cctv control room was added, occupying part of the garage area.
- Coordination was made between the storefront and the columns proposed by the structural engineer, which had not been previously coordinated by the architectural team.
- Coordination was made with the company that will be performing the water feature walls on-site.
- All engineering disciplines were coordinated with the aforementioned changes.
